The Family Leave-Taking of Gen. Logan's Remains.

ORDER OF THE PROCESSION.

Improving-The Fund for Mrs. Logan Growing Rapid; -Oregon Postoffices.

WASHINGTON, Dec. 30.—A sheet of fresh fallen snow covered the ground this morning and the skies were overcast and sombre. At the Logan manusion all preparations for the removal of the dead statesman had been perfected during the night. The remains still lay in the chamber where the general died, but had been placed in the casket, an elaborately drapade receptacle whose hermeit inner casing of copper was concented by its quitted lining of creamy satio, and whose plate-giast top, not yet in position, was designed to reveal the entire length of the form within. A square plate of silver in the middle of the cover bears the macription;

Florat pillows with funeral legends, crosses and noctors and other appropriate emblens, were placed near the casket and about the room. At 10 clock the undertaker and his assistants withdrew, when the immediate family were At I o'clock the undertaker and his assistants withdraw, when the inmediate family were summoned and left for a brief time alone with their dead. The hids were fastened in place, the ample folds of the garrison flag were arranged about the casket, and tied in place with ribbons of white, while howers and paum branches, were placed on its top. These last offers of love and respect were performed by the loving hands of the only son.

love and respect were performed by the loving hands of the only son.

All being in readiness for the more formal but private leave tabing, the doors were opened and the widow, supported by her son, and followed by her daughter and the r husband, her grand son, and other relatives and marrer friends of the deceased, to the number of fifteen or twenty, entered. Mrs. Logan knelt sobbling at the head of the ceaket, and when the others had entered and the door had been closed, the voice of the pastor was raised in prayer. There was a moment's stience, breken only by sobs of the stricken ones, and the son tenderly raised the almost fulnting form of the widow and led her nawy. The remaining friends paused for the last sight of the belowd features, and with their departure ended the family's custody of the striceman's remains. The congressional committee now took formal charge of the remains. The surgeant-narms superintended the closing of the casket and its slow and orderly removal from the chamber of death down the stairway between lines of uncovered soldiers, and its placing in the bearse. Fifes and mulled drums sounded for a satule, which metred itself into the air of "Nearer My Goll to Thee." At the word "forward," the hearts, preceded by the pastor's carriage alone, surcounded by a platoon of Grand Army men in uniform, and followed by a long procession of carriages, moved slowly down the shill to the capitol.

The funeral cortege, secorting the remains of Senator Logan, arrived at the capitol at 1.30 P.

The funeral cortege, seporting the remains of Senator Logan, arrived at the capitol at 1:30 P. M. in the ellence of thousands for persons, who placed upon the bier prepared for is reception. In accordance with the arrangements, there was no service of any kind, and the people present were requested to withdraw until 2 o'clock, when the lid of the caskut would be opened and the public te parmitted to diswithe remains.

REGLAND.

REOHGANIZING THE CARLET.

LONDON, Bue, 30.—The Marquis of Saliebury, after an interview with Jord Hartington to-morrow, with hold an informal council for the purpose of rearranging the cabinet. There is not a whisper about Sir Michael Hicks-Beach's having resigned the office of chief secretary for troland. It is certain that at the meet ug of the cabinet on Tuesday, the other ministers concurred in sexpressed decision to continue his present work. Lord Charles Beresfor i, one of the junctor lords of the Admiralty, is mentioned as a successor to Witham Henry Smith in the war filice. Otherwise the ministry will remain as it is. New York, Dec. 20.—The Star's Lendon correspondent calles: Sir Michael Hicks-Beach has accepted the position of chancellor of the exchequer in place of Lord Randolph Churchill. The cabinet has sattled to meet with parliament and carry on the business of the country if the the unionists give pledges of support. If not there will be an appeal to the country.

HARTINGTON REPUSES A CASHNET POSITION.

LONDON, Dec. 30.—Lord Hartington's conference to-ing with Chamberlain and Goschen proved that the 'radical-whig alliance is unforced. Chamberlain's interview with Lord Hartington lasted two hours. Both men expressed the opinion that it would be the wisest policy to maintain the liberal-unionist body as an independent section. The refusal of Lord Hartington to coter the capinet gratified the tories, who strongly objected to the infusion of liberal blood in the ministry. The cabinet ministers will go to testerne to-motrow to attend a council at which the question of further prorogation of parliament will be discussed.

DOLPH UPON OREGON POLITICS.

Henry George's Alleged Sacrifice-Affairs of the Hevalian Government—Two Notable Marringes-The Logan Fund.

MOBILE, Ala., Dec. S0.—News was received here late last night of the burning of the steamer Bradish Johnson, used as a boarding-house at Jackson, on the Bigbee river, eleven miles above Mobile, on Wednesday night. There is no telegraph line to that point. The Johnson was lying with her nose in the bank, and a gangpiank out. A. C. Yeall, one of the bosses, gave the following description of the fire: "I had just gone to bed when I heard a cry of fire. I rushed out into the cabin. There that here a party of men out there playing cards, the bosses, gave the following description of the fire: "I had just gone to bed when I heard a cry of fire. I rushed out into the cabin. There had been a party of men out there playing cards, and they saw the smoke rising. When I came into the cabin the fire seemed to be in the state-room aft of the pantry on the port side. The negroes were mostly lodged on what about the same time we got there. The ressel burned very fast, and was a solid mass of hames in a moment. When I had reached the bank I turned arround and saw the pilot house and taxas fall in. The negroes ried up the bank in a mob and rushed to the woods, where they huddled like sheep, and could not be persuaded to come down to the boat. They knew that some of their number were lost in the burning boat, and were seemingly superstitious about it. They find not want to go near the place. The boat burned for about and hour, when he saids, nothing but the jackstaff remaining out of water. As soon as I got ashore there was a report that there were men in the water on the other side of the stamer. Stiffs were manned and sent to their rescue. They picked in Mr. Daly, one of the mas. Win. Neal, an Englishman in one of the skiffs, had two netwest pick near him, but they sank out of sight. There is no telling just how many lost their lives in the fiames and in the river. Some say that ten others are missing but all that I know of are two negroes, Lewis Acams and Benjamin Busby, who were drowned, and two white men missing. I think two other whits men were hurned with the loot, think they had a chance to be awakened and then escape.

NO GREAT SACRIFICE.

NEW YORK, Dec. 30.—Henry George has declared that he is willing to sarrilee his claims to \$5000 or \$7000 worth of Northern Pacific railroad shock and New Jersey real estate, to insure greater comfort to a paralyzed old woman. George became a stock bolder and land owner by the will of George Hutchins, the owner of a vineyard called Anchora in the hundet of Blue Anchora, twenty miles from the city of Canden. He died a few months ago at the age of 50, leaving a childees widow. Hutchins became a disciple of Henry George after reading the latter's work, "Progress and Poverty." When the George boom was at its hight in the recent mayoraty canvasa, Henry George was notified by an attorney for the executor of Hutchins's will, that the bulk of the estate was intended to constitute a tund to be devoted to "spreading the light." The will bequeathed one-third of the estate to Mrs. Mary Hutchins. Recently Henry George received a touching letter from the widow of his disolple. She stated that since her husband's death she had become paralyzed, and that the \$5000 or so she would be entitled to under the will was insufficient for her support. Mrs. Hutchins practically threw herself on the generosity of her coleague; but she said if George insisted on taking the property she would not make a context.

NEW YORK, IPC. 30.—Senator Delph of Oregon was saked to-day how Oregon would stand in 1888. Said he: "My state will be emphatically republican. In 1884 I was a delegate to the national convention from Oregon and we were instructed to vote solidiy for Blauce. I think if the national convention were held to-morrow the same instructions would be carried out again. Blaine is very popular there. I think the republicane will win in the next election. New Yorz is the pivotal state, and whichever way it goes the election will go. The labor element will be a problem for the democrate to meet and I don't think they can successfully cope with it. The temperance vote has reached the highest limit and in my opinion the republicans will for the element."

DEN'EW'S PRESIDENTIAL BEE.

NEW YORK, Dec. 30.—By no means the least important in the political gossip of the day is the growing belief that Chauncey M. Depew, of the New York Central Bailroad company, has a president at bee in his bonnet. Depew himself says nothing, but his active efforts to concillate the labor element and his generous course toward the employes of the Vanderbilt property which he manages, are considered as surface indications of his intention. Bailroad Commissioner John O'Donnell, who is one of the Keensioner Jahn O'Donnell, who is one of the keenest political observers of the state, and generally
well posted, said: "My observations of the
course of senatorship leads me to believe that
Depew is shaping his course in that matter with
reference to the possibilities of his own nomination in 1888."

ROCKIAN. ell known that there are certain grounds of difference between American ideas and the ideas or doctrines of the (atholic church, particularly as to the offices of state and church in the matter of education. The public school, under control or direction of the state, is an American idea, and its support is an American principle. But the Catholic church in sists that education is not properly an office of the state, and that the schools should not be unly set us right. The whole ground of complaint met THE OREGONIAN by its Catholic neighbor rests upon the latter's assumption that it is not right, or at least that it shows a spirit un friendly to the church, to question the position of the authorities of the church upon this sabject. But this is a matter that rightfully be longs to the domain of public discussion, if any whatever does, and THE OREGONIAN simply maintains that the polity of the Catholic church, or of any other church, upon such a matter is not and can not be above examination and criticism. Again, it maintains that it is perfeetly proper to point out the tendency and 201 sequences of a polity under which pow is and duties that belong to the state (under cut sys-tem) are claimed for the church and our Catholic neighbor is not reasonable in anking protest against this opticely legid nate proceed

to consider the matter of dividing the city and come among the different funds. An amend ment was proposed at the last meeting setting aside 435 mills for the police fund, teaving 2 mills for the police fund. The object of this was said to be to limit the expenditures of the ire and police departments to a fixed sum, a 1 mills of which was to be set aside at the beginning of the year for the paymen of salaries. It was understood that the police and fire departments could not get along with any less than the amount above named but two mills for the general fund did not seem enough so some time was spent in potting 12, and 42 m different positions, to see if the sum of them could in a 13 way be suitracted from 10 and leave any more than 2 mills for the general fund. All over the Palouse country, both in Whitman Spokane and Nez Perce counties, are seen inmistakable signs of fature development. We have a country about one hundred miles in length and fifty miles broad which requires only cultivation to bring wealth and population. Its natural resources, when properly developed will reach beyond ordinary computation. The industry of stock raising on our western borders has already assumed handsome proportions. A splendid revenue is yearly derived from this source. Railroad competition will open up hitherto unsettled and undeveloped localities. All argues well for the fulling and the people are generally satisfied. The expenses of our last term of court are comparatively small. The economy of Judge I anglord in boding night sessions of the court for the discharge of accumulated business has met with much favor. It pon the occasion of his decision to scatain the temporary injunction filed in the local option case to prevent the can vase of votes polled at that election, Judge I anglord gave incidentally, and rather in the way of judicial election, a most profound and enoquent dissertation on the danger of ship-wireking the law to accommodate the shifting and uncertain passions of the public. Under misguided neitines of philamitropy great moral reforms are attempted by pursuing false and criminal methods. TO THE INITION OF THE ORE ONLAN.

In early times in Portland two blocks, Nos. In and 24, were donated if an "academy and female seminary." Block No. 132 was given as a "public market," and the property known as "tublic levee, and the property known as "public levee, to a private corporation—a rasping, grasping monopoly—to be used for its private gain, profit and hire. The property donated for a "public market" is occupied by a private corporation, who make use of it for gain, profit and hire, and the property donated for a "public market" is excupied by a private corporation, who make use of it for gain, profit and hire, and the property donated for invate residences and other private purposes is this satisfactory.

In other states and contries, when property is donated to a particular purpose, if it cannot be used for that purpose, if by law reverts to the denor but our supreme court has intimated an opinion that it a legislature in this state has powed to trunsfer such property to a private corporation, to use for private gain, profit and hire. Truly "a baniel come to judgment."

It really appears to me that our granger consum in the legislature have gone a step heyond the line of propriety in presuming thus arbitrarily to force from a local community property had was generously donated to a particular one and to foreibly transfer it to a private monopoly, for its private gain, profit and hire.

Register: We understand that the proprietors of the foundry are looking out for another location where a reasonable degree of favor will be shown such an enterprise. We are eshamed to acknowledge it, but it is a fact that the business men of Eugene have not exhibited any defect that an institution of that kind should succeed. On the contrary, work that should have been done here for the last year has been imported from other towns. This removal should not be permitted, as the work for the town would sustain it well if only given, and at lower rates even than paid others.

State Pressurer-elect webb has mean in some of \$500,000 with Gov. Moody, and the latter has approved of it. Some comment has been made by Eastern Oregon papers in regard to Gov. Moody's action in raising the bond from \$250,000 to \$560,000. The matter may be explained thus, says the Statesman. The law requires that the state breasurer shall give bonds for a turn by a one-fourth greater at least than the sum of money which shall be turned over to Mr. Webb by Mr. Hirsch will be something over to Mr. Webb by Mr. Hirsch will be something over the first enough. It would have been enough for Mr. Webb to merely change the figures on his first bond for \$250,000, and retain the same bondsmen. But he saw it to return his bond to Cunatilla county and got the signature of about forty more of his neighbors.

The Yakinn Former says in the contest case of Goodwin vs. Clark nine witnesses have been examined, and the examination adjourned to Jamesry 5, 1887. "There is a strong probability that the contest will be abandoned, insenuon as its seakent that there was no fraud in the election, and if there were any "liegal votes" the voters will refuse to testify, or the ground that it would criminate them. Moreover, some who are said to have voted illegally are known to have voted for the contestant, Goodwin."

The supreme court of the territory will convene in Olympia next Monday, January S. A good many important cases will come up for hearing at that time. Among them will be one already mentioned—that of the United States vs. the N. P. Railroud company and one Brock. The logs Brock had cut from land chaimed to have been sold by the N. P. railroad. A deposit of \$10,000 was made to cower the value of the logs, and they were released. Three important points will arise during the trial; one as to the right of the N. P. Post-Entelligencer: A gentleman down from Tacoma last night furnishes some information about the combination among the mill men of the coast, which was entered into in San Francisco last week and will go into effect the last of January. It is more comprehensive than previous ones, and seems to be somewhat on the pian in vogue among railroads which form pools. The mill men agree among themselves as to the hours of work, the output allowed each mill, and other details. In San Francisco the yards supplied by the different mills are continued in operation, but the proceeds of sales go into the hands of an agent of the combination and are divided among the several members promit, according to the amount of lumber sent into San Francisco during a certain period. This is expected to prevent any company from cutting rates or in other ways violating the rules of the combination. It is intended to mise the price of rough lumber \$1\$ per thousand, and probably other lumber and building material pro rata. This combination does not extend to orders from foreign countries.

WM HALL'S

Teneros's Tomb.

Jeffersos's Tomb.

Colonei Wilson, of the army, who has charge of the monument recently arcted by order of congress over the grave of Thomas Jefferson at Monticello, says that the vandals are already at work chipping chunks of the stone, and that if it is to be preserved a military guard will have to be sent down there. Several years ago congress appropriated \$5000 for the purpose of restoring the cemetery in which Jefferson is turied, and erecting a new mocument over his grave. This was in the time of Hayes, and the appropriation was not to be available until the owners of the estate gave a quit-claim to the limited States of a tract of ground two rods square surrounding the burial-place, and a pathway by which access thereto might be afforded he public. Jefferson was buried at Monticello in a little cemetery on his own plantation, and his wife, other members of his family, and some of his old servante, lie beside him. When the estate was being laid out at the time he was president, Jefferson wrote to his overseer, in structing him to set apart a little plot of ground as a burial place. "Choose some unfrequented vale in the park," he said, "where there is no sound to break the stillness hot the habbling of of a brook that winds through the woods, where no mark of human shape is, unless it be among the venerable coaks. Intersperse some gloomy evergreens. Appropriate one-half of it for my family and the rest for my servants and strangers who may die in the seighborhood, let the exit look upon the Blue mountains." CONSUMPTION CAN BE CURED.

Cures Conghs, Colds, Pneumonia, Consumption, Bronchial Difficulties, Bronchitis, Hoarseness, Asthma, Croup, Whooping Cough, Infinenza, and all Diseases of the Breathing Organs. It soothes and heals the Membrane of the Lungs, infiamed and poisoned by the disease, and prevents the night Eweats and the tightness across the chest which accompany it. CONSUMPTION is not an incurable malady, HALL'S BALSAM will oursely our even though professional aid hills. Price 25 cts., 50 cts. and \$1,50.
